Education / Professional Development

THE FIREHOSE PROJECT – DEC 2016 - JUNE 2017

In an intensive, 24-week program, I learned how to be a developer capable of breaking complex problems into manageable tasks.

- Learned how to build out basic CRUD Rails apps involving mailers, validations, image uploading on AWS S3, API integration, and nested RESTful routes following standard Rails conventions.
- Implemented test driven development using RSpec for new features.
- Worked through traditional computer science algorithms and data structure challenges in ruby: Graph search (depth-first and breadth-first), Linked Lists with ruby classes, Stacks and queues, and Reversed linked lists.

UNIVERSITY OF NORTH CAROLINA WILMINGTON – B.A. COMMUNICATION STUDIES, 2006-2010

Focused on Graphic Design: Major concentrated in Digital Multimedia, Digital Art minor.
